

# ASTM Bulletins—1944

## Subject Index

### Papers and Reports

#### A

##### Abrasion

Tests for Abrasion, Adhesion, Flexibility, and Hardness of Traffic Paints—Prepared by Charles W. Allen. No. 130, October, p. 29.

##### Accelerated Weathering Units

Current Procedures in Operating So-Called Accelerated Weathering Units—Prepared by R. W. Matlack. No. 131, December, p. 34.

##### Adhesion

Tests for Abrasion, Adhesion, Flexibility, and Hardness of Traffic Paints—Prepared by Charles W. Allen. No. 130, October, p. 29.

##### Adhesives

New Committee on Adhesives. No. 129, August, p. 29.

##### Air Entrainment

Investigation of the Air-Entraining Properties of Portland Cements Effected by the Addition of Vinsol Resin—W. J. McCoy. No. 127, March, p. 22.

The Reaction of Vinsol Resin as It Affects the Air Entrainment of Portland-Cement Concrete—Charles E. Wuerpel and Albert Weiner. No. 130, October, p. 41. Discussion, p. 43.

##### Aluminum

Discussion of Paper on Effects of Minor Alloying Elements on Aluminum Casting Alloys. No. 126, January, p. 27.

##### Aluminum Cleaners

Annotated Bibliography of Aluminum Cleaning—Prepared by Jay C. Harris and Robert B. Mears. No. 128, May, p. 35.

Corrosion Testing of Water-Soluble Aluminum Cleaners—Jay C. Harris. No. 129, August, p. 21.

Suggested Immersion Corrosion Test for Water-Soluble Aluminum Cleaners. No. 129, August, p. 27.

#### B

##### Ball Impact Tester

A Ball Impact Tester for Plastics—Charles R. Stock. No. 130, October, p. 21.

##### Bibliography

Annotated Bibliography of Aluminum Cleaning—Prepared by Jay C. Harris and Robert B. Mears. No. 128, May, p. 35.

#### C

##### Castings

Discussion of Paper on Effects of Minor Alloying Elements on Aluminum Casting Alloys. No. 126, January, p. 27.

##### Cement

Investigation of the Air-Entraining Properties of Portland Cements Effected by the Addition of Vinsol Resin—W. J. McCoy. No. 127, March, p. 22.

The Reaction of Vinsol Resin as It Affects the Air Entrainment of Portland-Cement Concrete—Charles E. Wuerpel and Albert Weiner. No. 130, October, p. 41. Discussion, p. 43.

Tests Comparing the Modulus of Elasticity of Portland Cement Concrete as Determined by the Dynamic (Sonic) and Compression (Secant at 1000 psi.) Methods—Thomas E. Stanton. No. 131, December, p. 17. Discussion, p. 20.

Stanton. No. 131, December, p. 17. Discussion, p. 20.

##### Cleaners

Annotated Bibliography of Aluminum Cleaning—Prepared by Jay C. Harris and Robert B. Mears. No. 128, May, p. 35.

Corrosion Testing of Water-Soluble Aluminum Cleaners—Jay C. Harris. No. 129, August, p. 21.

Suggested Immersion Corrosion Test for Water-Soluble Aluminum Cleaners. No. 129, August, p. 27.

##### Colorimetric Method

Metallography in Color—R. P. Loveland. No. 128, May, p. 19.

A Colorimetric Method for Determining the Water Vapor Content in Fuel Gases, Utilizing the Evelyn Colorimeter—R. J. Pfister and D. J. Kerley. No. 127, March, p. 17.

##### Compressed Wood

Fatigue Tests on Compressed and Impregnated Laminated Wood—Albert G. H. Dietz and Henry Grinsfelder. No. 129, August, p. 31. Discussion, p. 34.

##### Compression Testing

Proposed Methods of Test for Evaluation of Properties Related to the Hand of Soft-Finished Woven Fabrics. No. 126, January, p. 43.

Tests Comparing the Modulus of Elasticity of Portland Cement Concrete as Determined by the Dynamic (Sonic) and Compression (Secant at 1000 psi.) Methods—Thomas E. Stanton. No. 131, December, p. 17. Discussion, p. 20.

##### Concrete

Investigation of the Air-Entraining Properties of Portland Cements Effected by the Addition of Vinsol Resin—W. J. McCoy. No. 127, March, p. 22.

The Reaction of Vinsol Resin as It Affects the Air Entrainment of Portland-Cement Concrete—Charles E. Wuerpel and Albert Weiner. No. 130, October, p. 41. Discussion, p. 43.

Tests Comparing the Modulus of Elasticity of Portland Cement Concrete as Determined by the Dynamic (Sonic) and Compression (Secant at 1000 psi.) Methods—Thomas E. Stanton. No. 131, December, p. 17. Discussion, p. 20.

##### Contacts

Standardization of the Shape and Size of Electrical Contacts. No. 131, December, p. 37.

##### Copper

Quantitative Spectrographic Analysis of Copper Alloys—R. A. Wolfe and Emile J. Jemal. No. 129, August, p. 45. Discussion, p. 52.

##### Corrosion

Corrosion Testing of Water-Soluble Aluminum Cleaners—Jay C. Harris. No. 129, August, p. 21.

Galvanic Corrosion—R. H. Brown. No. 126, January, p. 21.

Mechanism of Corrosion Processes—R. M. Burns. No. 126, January, p. 17.

The Salt Spray Test—V. M. Darsey. No. 128, May, p. 31. Discussion, No. 131, December, p. 38.

Suggested Immersion Corrosion Test for Water-Soluble Aluminum Cleaners. No. 129, August, p. 27.

#### D

##### Die Castings

Committee B-6 on Die-Cast Metals and Alloys. No. 126, January, p. 34.

##### Drop Ball Impact Machine

Preliminary Studies on a Drop Ball Impact Machine—George Lugin and Roswell R. Winans. No. 128, May, p. 13.

##### Dynamic Testing

Tests Comparing the Modulus of Elasticity of Portland Cement Concrete as Determined by the Dynamic (Sonic) and Compression (Secant at 1000 psi.) Methods—Thomas E. Stanton. No. 131, December, p. 17. Discussion, p. 20.

#### E

##### Electrical Contacts

Standardization of the Shape and Size of Electrical Contacts. No. 131, December, p. 37.

##### Emergency Standards

A.S.T.M. Emergency Alternate Provisions. No. 126, January, p. 46; No. 127, March, p. 56; No. 128, May, p. 58; No. 130, October, p. 54; No. 131, December, p. 57.

News Accounts of Emergency Standards and Alternate Provisions. No. 126, January, p. 40; No. 127, March, p. 37; No. 128, May, p. 30; No. 129, August, p. 10; No. 131, December, p. 6.

Complete List of A.S.T.M. Emergency Specifications and Emergency Alternate Provisions. No. 126, January, p. 51; No. 130, October, p. 58.

##### Exposure Factor

Exposure Graphs for Radium Radiography of Steel—A. Morrison and E. M. Nodwell. No. 127, March, p. 25.

Radium Radiography of Thin Steel Sections—A. Morrison and E. M. Nodwell. No. 127, March, p. 29.

Use of Film to Measure Exposure to Gamma Rays—A. Morrison and E. M. Nodwell. No. 127, March, p. 31.

#### F

##### Fatigue Testing

Fatigue Tests on Compressed and Impregnated Laminated Wood—Albert G. H. Dietz and Henry Grinsfelder. No. 129, August, p. 31. Discussion, p. 34.

##### Finances

1943 Society Finances. No. 127, March, p. 40.

##### Flame Resistance

Flame Resistance of Thermosetting Plastics—James A. Gale, R. W. Stewart, and J. B. Alfors. No. 131, December, p. 23.

##### Flexibility

Tests for Abrasion, Adhesion, Flexibility, and Hardness of Traffic Paints—Prepared by Charles W. Allen. No. 130, October, p. 29.

# ASTM Bulletins—1944

## Subject Index

### Papers and Reports

#### A

##### Abrasion

Tests for Abrasion, Adhesion, Flexibility, and Hardness of Traffic Paints—Prepared by Charles W. Allen. No. 130, October, p. 29.

##### Accelerated Weathering Units

Current Procedures in Operating So-Called Accelerated Weathering Units—Prepared by R. W. Matlack. No. 131, December, p. 34.

##### Adhesion

Tests for Abrasion, Adhesion, Flexibility, and Hardness of Traffic Paints—Prepared by Charles W. Allen. No. 130, October, p. 29.

##### Adhesives

New Committee on Adhesives. No. 129, August, p. 29.

##### Air Entrainment

Investigation of the Air-Entraining Properties of Portland Cements Effected by the Addition of Vinsol Resin—W. J. McCoy. No. 127, March, p. 22.

The Reaction of Vinsol Resin as It Affects the Air Entrainment of Portland-Cement Concrete—Charles E. Wuerpel and Albert Weiner. No. 130, October, p. 41. Discussion, p. 43.

##### Aluminum

Discussion of Paper on Effects of Minor Alloying Elements on Aluminum Casting Alloys. No. 126, January, p. 27.

##### Aluminum Cleaners

Annotated Bibliography of Aluminum Cleaning—Prepared by Jay C. Harris and Robert B. Mears. No. 128, May, p. 35.

Corrosion Testing of Water-Soluble Aluminum Cleaners—Jay C. Harris. No. 129, August, p. 21.

Suggested Immersion Corrosion Test for Water-Soluble Aluminum Cleaners. No. 129, August, p. 27.

#### B

##### Ball Impact Tester

A Ball Impact Tester for Plastics—Charles R. Stock. No. 130, October, p. 21.

##### Bibliography

Annotated Bibliography of Aluminum Cleaning—Prepared by Jay C. Harris and Robert B. Mears. No. 128, May, p. 35.

#### C

##### Castings

Discussion of Paper on Effects of Minor Alloying Elements on Aluminum Casting Alloys. No. 126, January, p. 27.

##### Cement

Investigation of the Air-Entraining Properties of Portland Cements Effected by the Addition of Vinsol Resin—W. J. McCoy. No. 127, March, p. 22.

The Reaction of Vinsol Resin as It Affects the Air Entrainment of Portland-Cement Concrete—Charles E. Wuerpel and Albert Weiner. No. 130, October, p. 41. Discussion, p. 43.

Tests Comparing the Modulus of Elasticity of Portland Cement Concrete as Determined by the Dynamic (Sonic) and Compression (Secant at 1000 psi.) Methods—Thomas E. Stanton. No. 131, December, p. 17. Discussion, p. 20.

Stanton. No. 131, December, p. 17. Discussion, p. 20.

##### Cleaners

Annotated Bibliography of Aluminum Cleaning—Prepared by Jay C. Harris and Robert B. Mears. No. 128, May, p. 35.

Corrosion Testing of Water-Soluble Aluminum Cleaners—Jay C. Harris. No. 129, August, p. 21.

Suggested Immersion Corrosion Test for Water-Soluble Aluminum Cleaners. No. 129, August, p. 27.

##### Colorimetric Method

Metallography in Color—R. P. Loveland. No. 128, May, p. 19.

A Colorimetric Method for Determining the Water Vapor Content in Fuel Gases, Utilizing the Evelyn Colorimeter—R. J. Pfister and D. J. Kerley. No. 127, March, p. 17.

##### Compressed Wood

Fatigue Tests on Compressed and Impregnated Laminated Wood—Albert G. H. Dietz and Henry Grinsfelder. No. 129, August, p. 31. Discussion, p. 34.

##### Compression Testing

Proposed Methods of Test for Evaluation of Properties Related to the Hand of Soft-Finished Woven Fabrics. No. 126, January, p. 43.

Tests Comparing the Modulus of Elasticity of Portland Cement Concrete as Determined by the Dynamic (Sonic) and Compression (Secant at 1000 psi.) Methods—Thomas E. Stanton. No. 131, December, p. 17. Discussion, p. 20.

##### Concrete

Investigation of the Air-Entraining Properties of Portland Cements Effected by the Addition of Vinsol Resin—W. J. McCoy. No. 127, March, p. 22.

The Reaction of Vinsol Resin as It Affects the Air Entrainment of Portland-Cement Concrete—Charles E. Wuerpel and Albert Weiner. No. 130, October, p. 41. Discussion, p. 43.

Tests Comparing the Modulus of Elasticity of Portland Cement Concrete as Determined by the Dynamic (Sonic) and Compression (Secant at 1000 psi.) Methods—Thomas E. Stanton. No. 131, December, p. 17. Discussion, p. 20.

##### Contacts

Standardization of the Shape and Size of Electrical Contacts. No. 131, December, p. 37.

##### Copper

Quantitative Spectrographic Analysis of Copper Alloys—R. A. Wolfe and Emile J. Jemal. No. 129, August, p. 45. Discussion, p. 52.

##### Corrosion

Corrosion Testing of Water-Soluble Aluminum Cleaners—Jay C. Harris. No. 129, August, p. 21.

Galvanic Corrosion—R. H. Brown. No. 126, January, p. 21.

Mechanism of Corrosion Processes—R. M. Burns. No. 126, January, p. 17.

The Salt Spray Test—V. M. Darsey. No. 128, May, p. 31. Discussion, No. 131, December, p. 38.

Suggested Immersion Corrosion Test for Water-Soluble Aluminum Cleaners. No. 129, August, p. 27.

#### D

##### Die Castings

Committee B-6 on Die-Cast Metals and Alloys. No. 126, January, p. 34.

##### Drop Ball Impact Machine

Preliminary Studies on a Drop Ball Impact Machine—George Lugin and Roswell R. Winans. No. 128, May, p. 13.

##### Dynamic Testing

Tests Comparing the Modulus of Elasticity of Portland Cement Concrete as Determined by the Dynamic (Sonic) and Compression (Secant at 1000 psi.) Methods—Thomas E. Stanton. No. 131, December, p. 17. Discussion, p. 20.

#### E

##### Electrical Contacts

Standardization of the Shape and Size of Electrical Contacts. No. 131, December, p. 37.

##### Emergency Standards

A.S.T.M. Emergency Alternate Provisions. No. 126, January, p. 46; No. 127, March, p. 56; No. 128, May, p. 58; No. 130, October, p. 54; No. 131, December, p. 57.

News Accounts of Emergency Standards and Alternate Provisions. No. 126, January, p. 40; No. 127, March, p. 37; No. 128, May, p. 30; No. 129, August, p. 10; No. 131, December, p. 6.

Complete List of A.S.T.M. Emergency Specifications and Emergency Alternate Provisions. No. 126, January, p. 51; No. 130, October, p. 58.

##### Exposure Factor

Exposure Graphs for Radium Radiography of Steel—A. Morrison and E. M. Nodwell. No. 127, March, p. 25.

Radium Radiography of Thin Steel Sections—A. Morrison and E. M. Nodwell. No. 127, March, p. 29.

Use of Film to Measure Exposure to Gamma Rays—A. Morrison and E. M. Nodwell. No. 127, March, p. 31.

#### F

##### Fatigue Testing

Fatigue Tests on Compressed and Impregnated Laminated Wood—Albert G. H. Dietz and Henry Grinsfelder. No. 129, August, p. 31. Discussion, p. 34.

##### Finances

1943 Society Finances. No. 127, March, p. 40.

##### Flame Resistance

Flame Resistance of Thermosetting Plastics—James A. Gale, R. W. Stewart, and J. B. Alfors. No. 131, December, p. 23.

##### Flexibility

Tests for Abrasion, Adhesion, Flexibility, and Hardness of Traffic Paints—Prepared by Charles W. Allen. No. 130, October, p. 29.

## Friction

Proposed Methods of Test for Evaluation of Properties Related to the Hand of Soft-Finished Woven Fabrics. No. 126, January, p. 43.

## Fuel Gases

A Colorimetric Method for Determining the Water Vapor Content in Fuel Gases, Utilizing the Evelyn Colorimeter—R. J. Pfister and D. J. Kerley. No. 127, March, p. 17.

## Fuel-Resistant Materials

A Survey of Gum Residue Test Methods for Fuel-Resistant Synthetic Rubber Materials—Jules I. Wittebort. No. 130, October, p. 27.

## Fullness

Proposed Methods of Test for Evaluation of Properties Related to the Hand of Soft-Finished Woven Fabrics. No. 126, January, p. 43.

## G

### Galvanic Corrosion

Galvanic Corrosion—R. H. Brown. No. 126, January, p. 21.

### Gamma Rays

See Radiography

### Grain Size

The Application of Grain-Size Determination to Magnesium Alloys—C. H. Mahoney and A. L. Tarr. No. 130, October, p. 15. Discussion, p. 19.

A Numerical Rating Method for the Routine Metallographic Examination of Commercial Magnesium Alloys—P. F. George. No. 129, August, p. 35. Discussion, p. 43.

### Graphitization

Investigation of Graphitization of Piping—H. N. Boetcher. No. 130, October, p. 37.

### Grex

"Grex" Universal Yarn Numbering System—A. G. Scroggie. No. 127, March, p. 44.

### Gum Residue Test

A Survey of Gum Residue Test Methods for Fuel-Resistant Synthetic Rubber Materials—Jules I. Wittebort. No. 130, October, p. 27.

## H

### Hand of Fabrics

Proposed Methods of Test for Evaluation of Properties Related to the Hand of Soft-Finished Woven Fabrics. No. 126, January, p. 43.

### Hardness Testing

Tests for Abrasion, Adhesion, Flexibility, and Hardness of Traffic Paints—Prepared by Charles W. Allen. No. 130, October, p. 29.

### Honorary Memberships

Honorary Memberships Awarded. No. 129, August, p. 13.

## I

### Impact Testing

A Ball Impact Tester for Plastics—Charles R. Stock. No. 130, October, p. 21.

Preliminary Studies on a Drop Ball Impact Machine—George Lubin and Roswell R. Winans. No. 128, May, p. 13.

### Impregnated Wood

Fatigue Tests on Compressed and Impregnated Laminated Wood—Albert G. H. Dietz and Henry Grinsfelder. No. 129, August, p. 31. Discussion, p. 34.

## L

### Laboratory Tests

The Interpretation of Laboratory Tests as Quality Indices in Textiles—A. Griffin Ashcroft. No. 131, December, p. 27.

## Laminated Wood

Fatigue Tests on Compressed and Impregnated Laminated Wood—Albert G. H. Dietz and Henry Grinsfelder. No. 129, August, p. 31. Discussion, p. 34.

## Lubricating Grease

New Technical Committee G on Lubricating Grease. No. 130, October, p. 47.

## M

### Magnesium

The Application of Grain-Size Determination to Magnesium Alloys—C. H. Mahoney and A. L. Tarr. No. 130, October, p. 15. Discussion, p. 19.

A Numerical Rating Method for the Routine Metallographic Examination of Commercial Magnesium Alloys—P. F. George. No. 129, August, p. 35. Discussion, p. 43.

### Meetings

Abstracts Symposium on Magnetic Particle Testing, Philadelphia. No. 131, December, p. 7.

Cincinnati Spring Meeting—Symposium on Applications of Synthetic Rubbers. No. 127, March, p. 6.

Joint Meeting on Stress-Corrosion Cracking—Technical Papers Listed. No. 130, October, p. 51.

Detroit Meeting on Life Testing. No. 131, December, p. 44.

Outstanding Symposium on Plastics, Philadelphia. No. 127, March, p. 33; Abstracts of Papers, No. 126, January, p. 9.

Record-Breaking Annual Meeting, New York, No. 129, August, p. 5.

Standards in Post-War World Discussed at Toronto Meeting. No. 128, May, p. 41.

### Metal Powders

New Standing Committee on Metal Powders. No. 127, March, p. 42.

### Metallography

Metallography in Color—R. P. Loveland. No. 128, May, p. 19.

### Mildew Resistance

The Problem of Standardizing Test Methods for Mildew and Rot Resistant Treatments of Textiles—H. D. Barker, G. A. Greathouse, and P. B. Marsh. No. 126, January, p. 32.

### Minerals

Minerals in War and Peace—C. K. Leith. No. 129, August, p. 18.

### Modulus of Elasticity

Tests Comparing the Modulus of Elasticity of Portland Cement Concrete as Determined by the Dynamic (Sonic) and Compression (Secant at 1000 psi.) Methods—Thomas E. Stanton. No. 131, December, p. 17. Discussion, p. 20.

### Moisture

A Colorimetric Method for Determining the Water Vapor Content in Fuel Gases, Utilizing the Evelyn Colorimeter—R. J. Pfister and D. J. Kerley. No. 127, March, p. 17.

## N

### Numerical Rating Method

A Numerical Rating Method for the Routine Metallographic Examination of Commercial Magnesium Alloys—P. F. George. No. 129, August, p. 35. Discussion, p. 43.

## O

### Officers

Biographies of New A.S.T.M. Officers. No. 129, August, p. 9.

Secretary-Treasurer and Assistant Treasurer Honored. No. 129, August, p. 56.

## Ordnance Award

Society Receives Ordnance Distinguished Service Award. Presentation by Major General G. M. Barnes; Acceptance by President P. H. Bates. No. 130, October, p. 5.

## P

### Paint

Paint and Varnish Production Clubs. No. 130, October, p. 47.

Tests for Abrasion, Adhesion, Flexibility, and Hardness of Traffic Paints—Prepared by Charles W. Allen. No. 130, October, p. 29.

### Photography

Metallography in Color—R. P. Loveland. No. 128, May, p. 19.

### Piping

Investigation of Graphitization of Piping—H. N. Boetcher. No. 130, October, p. 37.

### Plastics

Abstracts Symposium on Plastics, Philadelphia. No. 126, January, p. 9.

A Ball Impact Tester for Plastics—Charles R. Stock. No. 130, October, p. 21.

Flame Resistance of Thermosetting Plastics—James A. Gale, R. W. Stewart, and J. B. Alfers. No. 131, December, p. 23.

Preliminary Studies on a Drop Ball Impact Machine—George Lubin and Roswell R. Winans. No. 128, May, p. 13.

### Pliability

Proposed Methods of Test for Evaluation of Properties Related to the Hand of Soft-Finished Woven Fabrics. No. 126, January, p. 43.

### Protective Coatings

Current Procedures in Operating So-Called Accelerated Weathering Units—Prepared by R. W. Matlack. No. 131, December, p. 34. The Salt Spray Test—V. M. Darsey. No. 128, May, p. 31. Discussion, No. 131, December, p. 38.

## Q

### Quality Testing

The Interpretation of Laboratory Tests as Quality Indices in Textiles—A. Griffin Ashcroft. No. 131, December, p. 27.

## R

### Radiography

Exposure Graphs for Radium Radiography of Steel—A. Morrison and E. M. Nodwell. No. 127, March, p. 25.

Radium Radiography of Thin Steel Sections—A. Morrison and E. M. Nodwell. No. 127, March, p. 29.

Use of Film to Measure Exposure to Gamma Rays—A. Morrison and E. M. Nodwell. No. 127, March, p. 31.

### Resin

Investigation of the Air-Entraining Properties of Portland Cements Effected by the Addition of Vinsol Resin—W. J. McCoy. No. 127, March, p. 22.

### Rot Resistance

The Problem of Standardizing Test Methods for Mildew and Rot Resistant Treatments of Textiles—H. D. Barker, G. A. Greathouse, and P. B. Marsh. No. 126, January, p. 32.

## S

### Salt Spray Test

The Salt Spray Test—V. M. Darsey. No. 128, May, p. 31. Discussion, No. 131, December, p. 38.

### Silicon

Discussion of Paper on Effects of Minor Alloying Elements on Aluminum Casting Alloys. No. 126, January, p. 27.

- Soap**  
See Cleaners.
- Soils**  
Discussion Factors Affecting Specific Gravity Values in the Proposed Method of Test for Soils. No. 126, January, p. 31.
- Specific Gravity**  
Discussion Factors Affecting Specific Gravity Values in the Proposed Method of Test for Soils. No. 126, January, p. 31.
- Spectrographic Analysis**  
Quantitative Spectrographic Analysis of Copper Alloys—R. A. Wolfe and Emile J. Jemal. No. 129, August, p. 45. Discussion, p. 52.
- Speed of Testing**  
Testing Speed Specifications—George C. Ernst and LeRoy W. Empey. No. 131, December, p. 31.
- Standard Samples**  
Standard Samples of Hydrocarbons. No. 128, May, p. 57.
- Standards and Standardization**  
(See also Emergency Standards)  
Great Activity in Development of Specifications and Tests for Materials—Many Items Nearing Completion. No. 129, August, p. 62.  
Materials Standardization. No. 128, May, p. 40.

- Yarn Numbering System**  
"Grex" Universal Yarn Numbering System—A. G. Scroggie. No. 127, March, p. 44.

## Index to Authors of Technical Papers

### 1944 ASTM Bulletins

While this Author Index does not list authors according to alphabetic sequence and the titles of the papers are condensed, it is believed the information as presented will be of service. Further details are given in the Subject Index.

#### January 1944—No. 126

- R. M. BURNS—Mechanism of Corrosion Processes  
R. H. BROWN—Galvanic Corrosion  
H. D. BARKER, G. A. GREATHOUSE, AND P. B. MARSH—Test Methods for Mildew and Rot Resistant Treatments of Textiles

#### March 1944—No. 127

- R. J. PFISTER AND D. J. KERLEY—Determining the Water Vapor Content in Fuel Gases  
W. J. MCCOY—Air-Entrainig Properties of Cements  
A. MORRISON AND E. M. NODWELL—Radium Radiography: Exposure Graphs; Thin Steel Sections; Use of Film to Measure Exposure  
A. G. SCROGGIE—"Grex" Universal Yarn Numbering System

#### May 1944—No. 128

- GEORGE LUBIN AND ROSWELL R. WINANS—Drop Ball Impact Machine  
R. P. LOVELAND—Metallography in Color  
V. M. DARSEY—The Salt Spray Test  
JAY C. HARRIS AND ROBERT B. MEARS—Annotated Bibliography of Aluminum Cleaning

#### August 1944—No. 129

- J. B. CARSWELL—Post-War Standardization  
C. K. LEITH—Minerals in War and Peace

JAY C. HARRIS—Corrosion Testing of Aluminum Cleaners

ALBERT G. H. DIETZ AND HENRY GRINSFELDER—Fatigue Tests on Laminated Wood  
P. F. GEORGE—Metallographic Examination of Magnesium Alloys  
R. A. WOLFE AND EMILE J. JEMAL—Spectrographic Analysis of Copper Alloys

#### October 1944—No. 130

- C. H. MAHONEY AND A. L. TARR—Grain-Size Determination of Magnesium Alloys  
CHARLES R. STOCK—Impact Tester for Plastics  
JULES I. WITTEBORT—Gum Residue Tests for Synthetic Rubber  
CHARLES W. ALLEN—Tests for Traffic Paints  
H. N. BOETCHER—Graphitization of Piping  
CHARLES E. WUERPEL AND ALBERT WEINER—Vinsol Resin and the Air Entrainment of Concrete

#### December 1944—No. 131

- THOMAS E. STANTON—Tests Comparing Modulus of Elasticity of Concrete  
JAMES A. GALE, R. W. STEWART, AND J. B. ALBERS—Flame Resistance of Thermosetting Plastics  
A. GRIFFIN ASHCROFT—Interpretation of Laboratory Tests as Quality Indices in Textiles  
GEORGE C. ERNST AND LEROY W. EMPEY—Testing Speed Specifications  
R. W. MATLACK—Current Procedures in Operating So-Called Accelerated Weathering Units
